What Do the Sun, the Moon, and the Stars Have in Store for YOU in 2024?

HAPPY NEW YEAR: WE CAN HELP YOU ANSWER THIS QUESTION

I am delighted to share this weekly column that seeks to inform readers about meaningful celestial activity. It is my overriding goal to share insights into how to effectively work with cosmic influences and to also connect with your higher self to the benefit of your health and prosperity. There is, however, more. This year we at Frequency Friday are happy to invite you to attend informative and enlightening programs expressly designed to help you utilize cosmic insights to be happier and healthier -- body, mind and spirit.

The Eventful 2024 Cosmic Beginning

An Astro-Fact: Mercury, the planet of the mind, stopped its retrograde motion and turned “direct” on January 1. The “re” in retrograde combined with the way our minds tend to work (i.e. with tendencies to second guess ourselves) suggests that for many of us the last 3 weeks of the year were times for “re”thinking and “re”considering. The good news is, now that Mercury is direct, it should be easier to make decisions and stick to them.

Invitation #1

January 11, 2024: A Full Moon and a Time to Create a Vision Board with Nanette Saylor

Learn more about Nanette at www.wisewellwomen.com. If you want more information about the event please send an e-mail with the subject line “Vision Board” to Nanette at Nanette@wisewellwomen.com. She will make sure you get all the details.

Sun, Moon & Stars™

Now for the Heavenly End of This First Month of January

An Astro-Fact: Uranus, the planet of surprises, that rules innovation, turns to move in a forward motion (direct) on January 27, 2024. It has been retrograding since August. Hooray! Starting new paths should, thus, become easier.
