UPLOAD

Opportunity...It often comes disguised in the form of misfortune or temporary defeat"  
~Napolean Hill, Author of the Law of Success

888

I realize my outer world is but a mirror of my inner world, and the mirror reflects my state of consciousness. Rather than changing the mirror, I change the state of consciousness the mirror reflects. There is no one to change but *self*. I am kind to others, and others are kind to me. I am Love, and Love reflects back to me. I satisfy my desire in my inner world, and it manifests in my outer world.

~Excerpt from Project 369, The Key to the Universe, Evolved Consciousness"

This lovely reminder of what is important in life, capture the theme of this week's mojo. It was created by our very own Nanette Saylor. Attend the 8/22 Community meeting for Frequency 432 (see page 3) and receive a copy for yourself.

## The Numerology of Self-Love

In numerology the # 6 is associated with loving and caring. The doubled master number of 6, the double-digit number that gives us clues to understand how to master the energy of Love is 33. The number 3 is an energy of giving. It has been my experience that when I meet people whose Life Path Numbers are 33/6 that they validate that they tend to be people who will give their shirts off their backs for others. And, however, they tend to be challenged when it comes to standing up for themselves. In our busy multi-tasking world, they are not alone. It is easy get pulled in so many directions that one ends up neglecting self-care.

In a light-hearted vein I offer 33/6's my services as a Fairygod Mother granting permission to take better care of themselves and being empowered to stand up for want. Resources for A Self-Love Upgrade

1. On the next page you will find an image of an imaginary Fairygod Mother (created using artificial intelligence). Included with her are suggestions on how to use her to inspire new positive self-commitments. Enjoy! I am hoping the saying, "A picture is worth a thousand words." will be inspirational.\*

2. Tune into the Phases of the Moon to go with the flow of nature's timeclock with the intent of honoring your deepest feelings and desires (see more on next page)

3. Engage in using the FREE Self-love 7-day practice found at [Oppenheimer and August 6](#)

If you have seen the movie Oppenheimer you may now be more attuned to the history of the making and use of the atom bombs. Thus, you may be aware that August 6, 1945 was when the first bomb was dropped in Japan. In the movie, that is reputed to be well-grounded in research and accurate, Robert Oppenheimer is portrayed as a brilliant man who painfully suffered psychological inner torture once the bomb was used. I was particularly interested in seeing this movie because I have personally known two husband and wife scientist teams who participated in the secretive atom bomb creation and building process in Los Alamos. In relating with each of the wives they shared how their participation was a life-altering experience. Similarly, they and their spouses proved to have devastatingly and psychologically challenging aftereffects that have been part of this catastrophic historic event.

I found even just watching the movie to be psychologically challenging and also relevant to the exploring and healing of PTSD the focus of Vibration 432, Inc., the nonprofit organization founded by Jill DiSalvo. The words of the chorus of Turn, Turn, Turn (above) are at least somewhat comforting in the wake of facing reminders of incomprehensible, yet, real human suffering.
