If your return was recently filed, you can disregard this letter as the IRS has not processed your return yet. They have not announced a processing date as of yet, but if your return was filed after September 1, 2022, I would disregard this notice as you either already received this credit, or it will be factored into the 2021 return that was filed in the last 6 - 8 weeks.

# The Silva Method

In the past 5 decades, The Silva Method has touched over 6 million lives in 110 countries, and is used by everyone from celebrities to high-flying CEOs to regular people in search of personal breakthroughs.

Mind science research has suggested that the key to most of the things we want in life, whether it's abundance, career success, health, happiness or enlightenment, lies in a particular state of mind caused by specific frequencies of the brain.

Scientists call these frequencies alpha and theta brainwaves frequencies.

We attained these states of mind unconsciously during sleep. The question is... how do you achieve this state of mind during waking consciousness? And more importantly, how do you use it to overcome your limitations and challenges, triumph over your unwanted habits and negative thought patterns, and enrich certain aspects of your life?

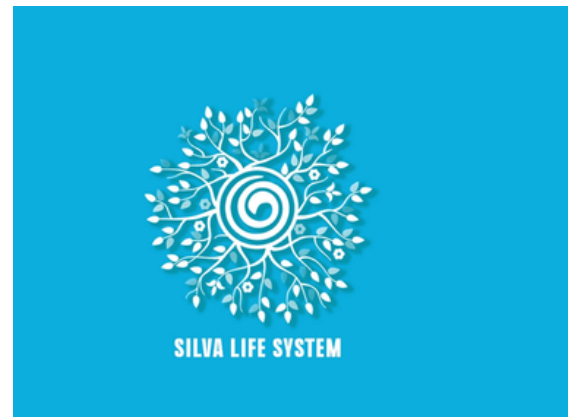

The Silva Method was created by Jose Silva that began his journey as a humble radio repairman in Laredo, Texas, and later as an electronics instructor with the United States Army Signal Corps.

Despite his career in electronics, Silva had a keen interest in hypnosis and the workings of the human mind. He spent his days working at his job and his nights studying the work of thought leaders like Freud, Jung and Adler. The turning point that rocketed Silva towards his breakthroughs was a simple question. How do you make the mind more efficient?

Through his professional knowledge, Silva already knew that reducing the resistance in an electrical wire allowed more electricity to flow through it (known as Ohm's law).

## Are you living life at the "Alpha Level"?

What Silva found was that by teaching people to consciously guide themselves to the Alpha and Theta level of mind through Centering Techniques, he could show many of them how to, while fully conscious, reprogram their minds like a computer. Why is this important? Well imagine being able to rewire yourself, without spending thousands of dollars on a professional hypnotherapist. What if you could more easily overcome bad habits like smoking or snacking? What if you could raise your IQ, cultivate a positive wealth mindset, and awaken your mind's natural healing capacity, all by rewiring your subconscious. The result that follow were highly encouraging. A multitude of Silva practitioners began reporting a variety of benefits, from stress relief to enhanced creativity and intuition to even potentially accelerated physical and emotional healing.

In short, people who used The Silva Method were often able to achieve greater control over their emotional state, their habits, their careers and finances, and their health.

## Get Your Cosmic Mojo On

### Tale of Two Eclipses: Honor Your Worth (A 6 Minute YouTube Video Presentation)

#### Much To Do About Mojo

On Sunday 10/23/22 both the Sun and Venus, the planet of money matters, move into the zodiac sign of Scorpio. The sign of Scorpio has a way of demanding attention. Think of its namesake. If you mess with a scorpion or inadvertently bother one it will strike vengeance upon you. On Tuesday, October 25 and Tuesday, November 8 (election day) there are lunar events (a new moon and full moon respectively). Both of these will have a greater than usual influence because they are both eclipsed moons. They may bring events that command you to pay attention. I encourage you to pay attention.

#### Exploring Eclipse Energies

Eclipses are wildcards. They are cosmic events known to bring information that has been hidden or ignored to light. Thus, an eclipse may cause or even force you to become aware of something you may have been avoiding or ignoring. (NOTE: Eclipses are active weeks before they occur and weeks after they occur thus if something of this nature has already happened or happens in the coming weeks – that's most likely an eclipse event. As I say above I alert you to pay attention and choose to act in your own best interests. I explain further about how to do this in a video <https://www.youtube.com/watch?v=qZnOp0YinoY&t=12s>

CLICK HERE for Hattie's video!

PS -- A Cosmic Bonus is Available: October 25, 2022 is a date that adds to the number 77. The number 77 is the master number of 5 the number of Wisdom. Thus, it has a higher than average vibration. Listen to how I suggest you take advantage of heavenly help on October 25 and be comforted by knowing you have even better than usual odds for making thoughtful action serve you and your well-being.
