## IRS Announces Backlog & Delays Continue - Patience Please!

At the end of May 2022, the agency had a backlog of **21.3 million unprocessed tax returns**. This includes personal and business tax returns in addition to paper filed Net Operating Loss Carrybacks and Employee Tax Retention Credits. According to the IRs, they are processing 250,000 tax returns per week but in order to catch up they would need to process twice that amount.. In addition, they are being inundated with taxpayer correspondence that taxpayer's are required to respond to IRS letters by mail. Through May 21, they processed **5 million letters**, but is taking them **3 times the average time to reply when compared with 2019**. The IRS also has received over **73 million telephone calls this year and only 1 out of 10 calls are being answered**. If you have not done so already, you should set up an ID.me account on IRS.gov in order to be able to access your records so we can try to determine any actions that need to be taken. ## Learn 5 Rhythms - Lucia Horan Dances a Wave

Lucia Horan, teacher and dancer, explains the power and magic of the 5 Rhythms® dance practice as she dances the Rhythms. Related, yet in contrast to ecstatic dance, "the 5 Rhythms® is a modality for understanding the human experience through movement." The 5 Rhythms® are: Flowing, Staccato, Chaos, Lyrical, Stillness. Lucia was born and was raised in the community of Esalen Institute in Big Sur where Gabrielle Roth created the 5 Rhythms®, a moving meditation that has had a global impact on healing and given rise to many other disciplines of dancing. Lucia teaches us to surrender to the dance, to embrace the impermanence of life, to be present with the truth that arises for us in each moment.

I receive e-mail frequent updates from Accountant's World and usually it gives IRS updates, new tax laws that are in review, payroll & compliance updates, etc. In this week's e-mail, I was surprised to see this featured article so I wanted to share!

### Rare 5-planet alignment comes into better view this week. Here's what to expect.

By Joe Rao published 7 days ago

Mercury, Venus, Mars, Jupiter and Saturn are putting on an epic predawn sky show right now.

A DIAGRAM SHOWING THE LOCATIONS OF FIVE BRIGHT PLANETS, MERCURY, VENUS, MARS, JUPITER AND SATURN, IN THE PREDAWN SKY ON JUNE 17, 2022

A rare parade of planets is coming into better view in the second half of June, and even the moon will join the show.

The current early-evening sky is completely devoid of any of the five bright planets you can see with the naked eye (Mercury, Venus, Mars, Jupiter and Saturn). You have to wait until the second half of the night to see any of them, and then they will slowly come into view, one by one, and just before sunrise, all five will be stretched out across the southern and eastern sky.

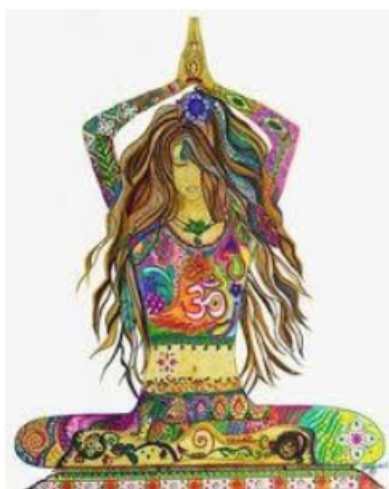

Certainly, it is not unusual to see two or three bright planets in a single glance, but to have five in view simultaneously is something quite special. This week's alignment will be quite "tight," with the five worlds appearing to stretch across an arc only about halfway across the sky from east-northeast to almost due south roughly about a half hour before sunrise. But even more interesting is that these five planets will appear in the same sequence in the sky as they are in their respective orbits around the sun. In this particular case, scanning from the east-northeast horizon and continuing upward and toward the right, will be Mercury, Venus, Mars, Jupiter and Saturn. Add the moon, which can serve to mark Earth's position in this lineup from June 23 to 25, and we have an exceptionally rare configuration.

Incredibly, the last time this kind of alignment happened was March 5, 1864! For full article, [CLICK HERE](#)

# Enneagram - What's Your Type?

Over the years, I have learned that the more self awareness that you have about who you are, what motivates you, what your likes and dislikes are, what are your strengths and weaknesses, etc. the more that it helps you understand and relate to other people. I have become fascinated with personality type assessments and believe the information and insight that you can gain from understanding your type and those of your team can help you to become a stronger leader, better manager and better human being.

We invite you to creatively join forces with this community to be supportive each other in making our dreams come true. On the eve of June 27 (hopefully a dry evening) go outside and look at the enormous blank screen that is the night sky. Tune into your heart and Heart's Desires. Then thinking of your heart as a powerful movie projector let your heart reveal to you what it truly wants. You are the producer and director of this production. To enhance the power of this New Moon manifesting event engage all your senses. Make it multi-media: add music, an essential oil, a nurturing self-hug and a toast.
