Scholarships for Private School or Public School Transportation Costs

Every Student Deserves A Choice

Education isn't one-size-fits all. Just as every student is different, every classroom is different, and every school is different. Students learn best in an academic environment that is best suited to their learning needs.

Step Up For Students supports Florida students and families in building a stronger future through personalized education. These scholarships open doors with private school tuition assistance, help covering the cost of traveling to a different public school and more through an education savings account.

Who Is Eligible?

As of July 1, 2023, scholarships will be available to all students, regardless of household income, who are residents of Florida and eligible to enroll in a K-12 public school.

Priority will be given to families whose household income is 400% of poverty or below as outlined in the income priority guidelines or who meet the following criteria:

- Renewing students of the Florida Tax Credit Scholarship and/or Family Empowerment Scholarship
- Children in foster care or out-of-home care

- The Florida Tax Credit Scholarship (FTC)
- The Family Empowerment Scholarship for Educational Options (FES-EO)

Scholarships for Private Schools

K-12 students, regardless of household income, who are residents of Florida and eligible to enroll in a K-12 public school can receive a scholarship worth an average of \$7,700 to attend a private school that best meets their academic needs.

The scholarship can be used for tuition along with other related expenses such as registration, books, testing and other fees.

Scholarships for Public School Transportation

K-12 students have the option of attending a public school that is a better fit than the one they've been assigned. Students who meet the income requirements can receive at least \$750 to be used for transportation.

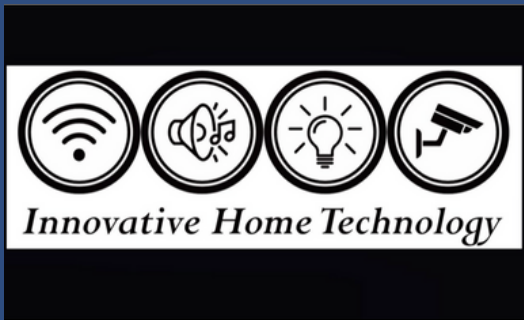

Scholarships for PEP Program

Florida students who are not full-time private nor full-time public school students now have access to the Personalized Education Program (PEP) through the Florida Tax Credit Scholarship Program.

by Hattie Parker, MS Ed, Astrologer, Numerologist & "Yes I Can" Creator/Coach

The above diagram was created by Pythagoras (570 BC – 490 BC). He, an eccentric genius mathematician, Father of Numerology and initiator of the concept of Music of the Spheres (planets) was attuned to and tuned into cosmic vibrational energy. Additionally, as a mystic and comprehensive thinker, the Einstein of his day, he can be assumed to have, even in those very ancient times, with none of the advanced science we have today, believed in the efficacy of the phrase "Everything is Energy." In the service of being truly helpful to our readers It is this concept that prompts the authors and contributors of this newsletter to be sharing uplifting information. Pythagoras makes us aware that this thinking that "Everything is energy" has been around for a very long time.

The very long time-tested lesson for us to learn and benefit from knowing is that: "Everything is Energy and, thus, it behooves us to be nurturing our energy to vibrate at an optimum or at least elevated level.

Announcing Auspicious Short-Lived Time to Seek Meaningful Results Inspired by Positive Thinking.

Wednesday 6/24//23 (exactly one week after this year's Summer Solstice) is a stand out energetically noteworthy life affirming day. It is a very favorable time to a make a meaningful commitment to truly embracing positive thinking this summer.

"Everything Is Energy": A Recognized Truth Hailing from Time Immemorial

About the Cosmic Energies 6/28/23

On 6/28/23 there is what is known as a Lunar Grand Trine in water signs. The Sun, Moon, and Saturn will be arranged in the heavens to be 120 degrees apart from each other, thus, forming an equilateral triangle. I refer to Grand Trines as being akin to having a vein of gold in a chart. Because this Grand Trine includes The Moon it will, because The Moon moves quickly. Thus, this trine will only be in effect for one day. And, however, energies making this heavenly event all the more powerful, the numbers of 6/23/2023 add to 77. ($6 + 23 + 43 = 77$, $7 + 7 = 14$, $1 + 4 = 5$.)

Doubled numbers in numerology are master numbers. 77 is the Master number of 5, the number of wisdom. We have one day this week that includes n energetic vein of gold with a twist of wisdom. Mark your calendars 6/28/23 is a great day to partner with the universe to manifest dreams. With a positive hit of gold and wisdom it seems fitting to dream big.

This will happen in the Gibbous Waxing Moon Phase see attaches Phases and "Phases" of the Moon. Again the message is, appropriately, "Dream Big" and plan to

Today I'm inviting you to consider the possibility that, in order to be receptive to all the bounty and abundance that is available to us on our magical life journey, we all need to take a moment to pause and reflect.

I do this through my daily-ish journaling practice and ritual called "Morning Pages." I do this through Intuitive Painting and Art Journaling. I do this on long solo beach walks or strolls in the woods along a tree-lined path.

How do you do this? Do you consciously create time to reflect and redirect?

Do you create time and space to hear your Inner Wisdom? How will you know you are on the path most aligned for you, the you who you wish to be?

We are best served when we are open to channel the energy and excitement of our creative genius. We can only do this when we make clear space to quiet the noise swirling around us and capture the messages our Inner Wisdom is sharing through our hearts. This is not "hard" to do. It does require a commitment.

I believe you're worth it. Do you?
