April 22, 1970: It all started when 20 million people flooded into the streets all across the United States of America in effort to bring awareness to a significant cause, our impacts on the environment. For this Earth Day, I challenge you to do more than the minimal action of turning off your lights and electronics for the day.

- Work on eliminating single-use plastic from your life.
- Focus on reducing rather than recycling.
- Avoid clothing made from polyester
- Reach out to corporations and voice your opinion about their packaging options.
- Volunteer in clean-up projects
- Make decisions with the environment in mind rather than convenience.
- Be an advocate and inform your family, friends, and community of how they could make a positive impact.

Hi everyone!! Today is International Tea Day and I am so excited to announce the launch of my new tea business!!

Tea 4 Chi is my 16 year old dream come true and I am so excited to share with everyone! Why Tea 4 Chi? As an early teen, I struggled with eating disorders—mostly anorexia but I also became addicted to laxatives. I got to the point where I literally could not go to the bathroom without them. When I was 16, my mom took me to my first acupuncture appointment with Dr. Zoll in Boca Raton and he treated me for my eating disorders and stomach issues. That is where I learned about Chi and my passion for healing with Chinese medicine began. I had been researching herbal remedies and 'alternative medicines' prior to that appointment with Dr. Zoll as my uncle Jack had been battling with multiple myeloma cancer for years and Western medicine was not able to cure him. From that first session, I was hooked! On that day, 26 years ago, I came up with the name Tea 4 Chi. We offer 7 hand crafted organic, caffeine free blends that are specially crafted to help balance each of your 7 chakras. Take the online chakra quiz to see which one is blocked and which tea is right for you?

A CRYPTO PRIMER: EARTHBOUND AND CELESTIAL NEWS AND VIEWS

## Get Your Cosmic Mojo Earth Day 4/22/2022: Ecology, Empathy and the Cosmos

### Earth Karma

Friday, April 22, 2022 in numerology is a number 14/5 day ( $4 + 2 + 2 + 2 + 0 + 2 + 2 = 14 = 1 + 4 = 5$ ). This is so interesting from a frequency perspective! The number 14/5 is a number that is one the 4 possible sets of numbers that are historically known as Karmic Debt numbers. The 14/5 Karmic Debt is related to a past life habit of being prone to be into excess, addiction and being out of control in consuming. Interesting and seemingly very appropriate that this happens to be Earth Day a time set aside to become more alert to the excesses that are hurting our collective well-being.

### Cosmic Energy and Empathy

At the same time that Earth Day happens on a numerological karmic debt day astrologically the planets Neptune (sensitivity) and Jupiter (expansiveness) are together in the heavens. This paring of planets can contribute to people everywhere being likely to be somewhat more empathetic than usual.

No doubt people reading this column are busy with life as usual. However now that you know this is a rather special day I encourage you to consciously tune into the earth and listen to what it is asking of you. For example: Might you feel called to donate time and/or money to saving elephants in Africa, children in Ukraine, or trees in fire torn Boulder Colorado. The options are many.

I encourage you to open to becoming aware on 4/22 and then choose stay open to listening to the Earth talking to you and asking you for help. May any action you take warm your heart and make you feel connected to the millions of people who care about the well-being of our vast and amazing earth.

### Special Announcement – Free Aura Imaging: Opportunity to meet Hattie this weekend!
