

WEEKLY TIPS FOR YOUR WELL BEING

THE MOST TABOO TOPIC ON EARTH

ADAPTED FROM: AKASHICKNOWING.COM

Do you think I'm speaking about sex? No! Money. People are more willing to discuss their sex lives than their bank accounts. Why is this?

You may have heard the expression, "Money is the root of all evil." That's incorrect; the actual saying is, "The love of money is the root of all evil." We're raised to think that wanting to have money is somehow bad, and the media confirms this. In film and stories, rich people are often portrayed as selfish and/or cruel – think of Scrooge in *A Christmas Carol*. And those with meager means are typically saintly and loving: Mother Theresa.

Is it any wonder we're confused about abundance, and may feel we don't deserve it?

Now that we're resuming in-person life experiences again (vs. all virtual), people are reimagining their lives in a major way. Many are resigning from jobs, relocating, or both. There is a lot of renewed anxiety about work and income. How do these choices and changes affect your abundance?

Collective Unconscious Beliefs

As mentioned, society's thoughts about money have a powerful effect on us. Ideas about money and prosperity may come from your parents, grandparents, teachers, or religious leaders. Maybe your best friend's parents influenced your views about money. You might remember your parents saying, "We can't afford that new bicycle! Do you think money grows on trees?" Even if they didn't say it, they may have felt it, transferring their thoughts and beliefs to you energetically as well as through facial expressions or body language. We carry around many thoughts and beliefs about money that are unconscious and nonverbal. And because money is a taboo topic in many families and cultures around the world, these thought and beliefs become ingrained as behaviors that are never examined or questioned.

Below are some common beliefs you may hold that keep you from your abundance:

- Money is bad.
- I don't want to have money because rich people have problems.
- Money causes unhappiness.
- People marry you for your money, not because they love you.
- Rich kids party too much and get in trouble.
- Rich people get divorced a lot.
- You have to work really hard to make money.
- You have to be smart to make money and I'm not that smart.
- If you have a lot of money you must have acquired it illegally, or you're a gangster or crook. (Ask yourself: Can you be very rich and honest? How does your answer feel?)
- You have to be born rich to have a lot of money.

To experience your divine abundance, you must clear out these negative beliefs. This Akashic healing prayer can help:

PRAYER FOR FINANCIAL ABUNDANCE

I am open to the flow of abundance. Please take me back, outside of time and space, to the origin of any lack or poverty consciousness I hold. I release the collective beliefs that affect me consciously and unconsciously. I liberate any beliefs which came from my family and ancestral lineage, and return them to their originator with love. I now create new space in my life and body to make new choices. I am free to follow my Soul Path. As I step into the flow of abundance, new ideas, situations and opportunities enhance my life with ease. I accept these blessings for all of humanity. I am filled with gratitude. So it is. Blessed be.

Get Your Cosmic Mojo On A Time of Change: An Opportunity to Contribute

On Friday August 20, 2021 Uranus the planet that influences unexpected consequences and innovation turns retrograde. When a planet is retrograde it is time to re-evaluate. Thus for example, the unexpected consequences situation in Afghanistan will undoubtedly receive plenty of re-evaluation attention in the coming months of this Uranus Retrograde. Now alerted to the phenomenon, you will be more likely to become aware of its influence in your life. (Expect the Unexpected!) It happens 5 months of every year and this year's dates are August 20, 2021 – January 18, 2022.

You may be aware that Jill, someone who forcefully chooses to walk her talk, has established a non-profit organization, Vibration 432, Inc. with the mission of offering help for first responders. As part of her intent to be innovative she has acquired aura imaging equipment. (FYI: I have offered services using this powerful tool for over 18 years. Learn more at <https://hattieparker.com/gallery-of-auras>). The system makes it possible for people to literally see their energy field, including: energy strengths, weaknesses and/or blocks. We are currently preparing to make this service available to support some highly stressed first responders (For example: the over worked and highly stressed Palm Beach County health care workers).

Our first challenge is to create effective explanatory materials tailored to current life stressing circumstances. In pursuit of this goal we are seeking to find a few "guinea pig" participants to help us. The typical fee for such a service would be \$75.00 - \$125.00.

As a special offer for your helping hand (the aura imaging equipment literally uses the hand to measure the energy!) we are asking a very reduced fee of \$45.00. With this special service you will receive multiple aura images and personal insights. We will, in turn, ask you to share your about experience so we can use it (anonymously if desired) to generate literature that explains the process and its benefits. (It is anticipated that the total time commitment will be approximately one hour.)

Here is a picture of Jill's aura from our first meeting last June. Jill has found it to be an invaluable tool to measure her energy and find chakra blockages depending on what is happening both in her business and in her personal life.

If you would like to participate in being part of this community service effort please contact me at (732)-859-2134 or at Hattie@hattieparker.com. **This offer will be made available for a maximum of 4 -5 people. If you want to participate you must tell me by 8/26.** I will be delighted to talk with you if you have questions and if you choose to proceed I will arrange for convenient timing for your participation.

BUSINESS SPOTLIGHT

This week, I am excited to introduce Nora and her company **Farrell PR, LLC**. Nora is a 15-year PR veteran and small business advocate. She started Farrell PR in January 2020 because she saw a need to help small businesses manage their marketing efforts efficiently and affordably. With COVID in full swing by March 2020, small businesses were aching for help, so she used her years of public relations experience to help people find ways to promote their business in this new digital world.

But her love for small businesses started way before 2020. Growing up she watched her parents build their business, Farrell Transportation, from the ground - literally, their first office was in the basement of their house in New Jersey - into an extremely profitable mid-size enterprise by the time she graduated college. She was always inspired by the work her parents put into building Farrell Transportation, which instilled within her at a young age the pride that comes with a flourishing, reputable business.

In her own career, she has spent years working with clients in the hotel, destination, cruise, food, and beauty industries, promoting their brands and achieving profit goals through social media, online marketing, and community and media relations. She has managed the PR efforts for over 100 hotels, launched international cruise ships, hosted media at wineries in California, educated chefs on the importance of using quality ingredients in their restaurants, and promoted products for the largest luxury hair care brand in the world. While much of her career was spent working with large businesses and corporations, she found that the most rewarding work was with small businesses and entrepreneurs. Nora believes that every business owner should have the knowledge, resources, and support to market their business successfully and affordably - and so Farrell PR was created to offer them just that!

FULL MOON, Sunday August 22nd

The full moon this weekend will be both a sturgeon moon and a blue moon so make sure you check it out! The spiritual meaning of the Full Blue Moon relates to growth. Your growth on a personal, material and spiritual level. It is a time for second chances, living from a place of abundance and a good time to say this mantra: " I am strong enough to be myself". This is a good time for you to reflect on what's working for you and what is not. Instead of focusing on what you lack, give thanks for the good in your life and prepare to make way for more of that good. Enjoy!
